

Radwa Fakhruddin

7300752596 | radwakhan399@gmail.com | Ghaziabad, Uttar Pradesh

Summary

Android Developer with expertise in Kotlin and Jetpack Compose, skilled in building user-centric and scalable mobile applications. Proficient in REST API integration, database management, and advanced Android features. Passionate about learning new technologies and delivering impactful projects.

Skills

Kotlin, Jetpack Compose, Retrofit, Firebase, SQL, APIs, Database, Room, Problem Solving, UI/UX

Education

Chaudhary Charan Singh University | Merrut, UP
BCA | 10/2023

Professional Projects

Web App to Mobile App Conversion

Converted a web application into a fully functional Android app using Jetpack Compose and WebView. Integrated features like file uploads, camera access for live photo capture, and runtime permissions. Delivered a responsive and mobile-optimized design with a custom splash screen.

Real-World Android Applications

- **To-Do App:** Built with Room Database and Jetpack Compose for efficient task management.
- **Weather App:** Integrated with a weather API to display live forecasts.
- **Dictionary App:** Implemented Retrofit for API calls and displayed word definitions with examples.
- **Notes App:** Included rich text editing features and database functionality.

Hobbies & Interests

- Exploring new technologies and coding practices.
- Sharing coding tutorials and screen recordings to help others learn.
- Reading technical blogs and participating in tech forums.
